Adylic Creative Banner Task

Format: 300x600

Description:

The banner will feature a product carousel accompanied by relevant titles. Please refer to the example screenshot for the desired appearance. All necessary fonts and imagery assets are located in the assets folder.

Designs can be found at this Zeplin link:
https://app.zeplin.io/project/6539185eea9f84201427c8c5

Upon completion, push the work to GitHub versioning control. Once ready, share with:
zain.mughal@adylic.com
nirmala.halappa@adylic.com

Animation:

The creative will start with the first product and title. After 1.5 seconds, the subsequent product and title will fade in. This pattern continues for all 4 products before looping. The animation should be executed using GSAP.

Functionality:

The carousel should auto-play upon loading. If the user interacts with the arrows, they will control the image transitions (images will fade in and out). Interaction with the arrows should also update the product title accordingly. Follow the animation mock-up reference attached.

Product Titles:

Micro Bags
Small Check Merino Wool Scarf
Mini Alexa in Amethyst
Medium Lily in Sapphire
